(★5/ 5) Major League Baseball is the professional baseball league of the United States, Canada, and Mexico, consisting of 30 member teams and 1 team in Puerto Rico. Each team plays a 162 game schedule. Including playoffs, regular season, and games between each team for a total of 1,162 games a year, usually starting in April and ending in October, it is the longest professional sports league in the world. The New Fantasy Baseball is an online baseball league that you could play at your leisure with other people all over the world. (★3/ 5) Just like its predecessor, The Legend of Zelda: Breath of the Wild continues the story of Link's progression through Hyrule, making his way to its center and awakening the power of the Triforce in the process. However, the game has seen some

improvements in the eight years since *The Legend of Zelda: Twilight Princess*. (★2/ 5) While the game is beautiful and creative, the gimmicks and glitches will be a turn-off for many players. While it's not a bad game, it isn't a fan favorite like the Nintendo 3DS titles. The music is the highlight of the game, and it's quite nice as it's more fluid. It's by far the best title on the Switch. It feels more refined than *Breath of the Wild* but it's not perfect. (★1/ 5) Getting back to *Breath of the Wild*, Nintendo's 2017 post-launch downloadable title really caters to my very particular tastes. While I thoroughly enjoy the game (and I really love Hyrule), it's not for everyone. Even I can identify certain things about it that keep it from being truly wonderful. At the end of the day, though, Nintendo has created a truly excellent game that offers a lot for the player. (★0/ 5) Since it took a solid three hours to get

back to Hyrule after the game automatically completed my first playthrough, I approached the bulk of the game with suspicion, and I'm happy to report that I ended up really enjoying myself. There are some problems that cropped up during the course of the game which I do have problems with, but they didn't keep me from having fun. The game isn't perfect, but the things that did bother me were most likely personal problems to me. This is by far the weakest Zelda game since Phantom Hourglass. (★0/ 5) A real adventure in the land of Hyrule, bff6bb2d33
