If you place an order for a product with ShipOrder=1 and that product has already been shipped, the order will still be shipped, but this will be done in order to ensure you are receiving your item(s) before the day they need to be shipped. If this is not the behavior you want, you have two options: - Click the button in the upper right-hand corner of the order form, and select Change Order. This will show you the item you placed and allow you to adjust the shipment schedule. - Click Cancel. Our apologies for any inconvenience this may cause you. We are actively working to improve the ordering experience and will be implementing a variety of features to this end. Let us know if you have any issues.Q: Problems Running on AWS: Connecting to SQS I have a problem with connecting to SQS on AWS.
